1 CHI 97: From Web Press to Web Pressure: Multimedia Representations and Multimedia Publishing

Size: 54.39KB   MIME type: text/html

Editorial staff, working under pressure in printed and online publications, need to use a growing diversity of representations for planning, creating and reviewing content. We also show why physical representations are often preferred over online representations (an issue which is not developed in Sumner's similar and otherwise excellent analysis of representations used by software designers [28]). We then discuss implications for designing and applying new technologies to overcome ...

4 CHI 97: HCI in the Czech Republic

Size: 11.41KB   MIME type: text/html

The first users of computers were scientists that used computers for their particular applications and they did not mind if they had to communicate with computers in a "non-user friendly" way (Clumsy sequences of letters, numbers and other characters were exchanged between the user and the machine.) Users and designers of software systems were aware of the fact that the user interface has two parts (a machine one and a human one) that should be linked together in an appropriate way in order ...

9 <u>Beyond the Browser</u>
 Size: 17.22KB   MIME type: text/html

 The web uses mostly a pull model for retrieving information: a user goes to a site and downloads information. As people feel the need for more timely and customized information, publishers and users will increasingly turn to information that can be 'broadcast' to users. Netscape Communicator successfully integrates many of the individual components that users need to deal with their information.

10 <u>Preface</u>
 Size: 11.54KB   MIME type: text/html

 The tutorial slides are arranged as a sequence of 500+ hyper-linked pages containing VRML syntax notes, VRML usage comments, or images of sample VRML worlds. VRML

1.0c January 1996 As vendors began producing VRML 1.0 browsers, a number of ambiguities in the VRML 1.0 specification surfaced. The final ISO VRML was dubbed VRML 97. The VRML 97 specification features finalized in March 1997 and its explanitory text finalized in September 1997.

11 ACM: March 21, 2004 SIG Governing Board Meeting
Size: 28.29KB   MIME type: text/html

He and his team were willing to help ACM SIG Chairs with their sponsored conferences. The new leadership of SIGGROUP must provide an update on their volunteer development and activities to Robert Walker (SGB EC Vice-Chair for SIG Development) by a final deadline of May 15, 2004, otherwise the SGB EC will consider dechartering the SIG. Motion: Move to update the SIG fund balance requirements from 50% operational / 20% conference expenses to 50% operational / 40% conference expenses.
